Communication

Date	28 October 2026
Team ID	EN25CS3010457
Project Name	EV Market Performance and Insights Dashboard (Tableau)
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Personal to-do list / Notes app	Individual (Self)	Plan daily tasks: data cleaning, worksheets and dashboard building
2	Progress Update	Weekly	Email / Google Meet	Individual, Mentor	Share completed worksheets and dashboard progress for guidance
3	Issue / Bug Discussion	As Needed	Tableau Community, Online Docs	Individual (Self)	Troubleshoot data, calculated field and filter issues
4	Stakeholder Review	Bi-Weekly	Google Meet / Screen Share	Individual, Mentor / Evaluator	Review both dashboards against the 3 stakeholder scenarios
5	Final Demo Rehearsal	Once	Screen recording / Tableau Desktop	Individual (Self)	Practice demo flow, timing and interactions
6	Mentor Feedback Session	As Scheduled	Email / Google Meet	Individual, Mentor	Collect feedback and apply improvements to visuals

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Working alone, so there was no teammate to review the dashboards or catch errors.	Used a self-review checklist, tested every filter and tooltip, and took mentor feedback.
2	Large dataset with many vehicle categories made charts crowded and hard to read.	Cleaned the data, used a common category colour legend and filters to keep visuals clear.
3	Making sure the dashboards answered the needs of all 3 stakeholder scenarios.	Mapped each KPI and chart to Emily, David and Dr. Sarah's goals and built 2 focused dashboards.
