Project Demo Planning

Date	28 October 2026
Team ID	EN25CS3010457
Project Name	EV Market Performance and Insights Dashboard (Tableau)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction and Problem Statement	EV industry background, project goal and the 3 stakeholder scenarios.	2	Individual (Self)
2	Dataset and Data Preparation	Overview of the EV dataset, key fields and preparation done in Tableau.	2	Individual (Self)
3	Dashboard 1 Walkthrough	KPI cards, production by country, top manufacturers, range and retained value.	4	Individual (Self)
4	Dashboard 2 Walkthrough	Sales trend, battery tech performance, charging vs efficiency, CO2 impact map.	4	Individual (Self)
5	Insights and Scenario Mapping	How the dashboards answer the needs of Emily, David and Dr. Sarah.	3	Individual (Self)
6	Conclusion and Future Scope	Key takeaways, limitations and scalability plan.	2	Individual (Self)

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Present EV market context, problem statement and the 3 user scenarios.
2	Solution Overview	Explain the solution: dataset, Tableau worksheets and the 2-dashboard design.
3	Live Feature Demonstration	Live walkthrough of both dashboards using filters, tooltips and interactions.
4	Q&A Session	Answer questions on insights, design choices and future scope.
